List of Participants xxiii

SESSION I

METABOLIC CONTROL AND THE FOLATE SYSTEM

Session Chairman: H. GRUNICKE

FAN, J., POPE, L. E., VITOLS, K. S. and HUENNEKENS, F. M., Visualization of Folate Transport Proteins by Covalent Labeling with Fluorescein Methotrexate 3

SNELL, K. and FELL, D. A., Metabolic Control Analysis of Mammalian Serine Metabolism 13

SESSION II

ENZYMES AS TARGETS OF CHEMOTHERAPY

Session Chairman: D. KEPPLER

WEBER, G., YAMAJI, Y., NAGAI, M., NATSUMEDA, Y., JAYARAM, H. N., ZHEN, W. and PAULIK, E., Tiazofurin Action in Leukemia: Evidence for Down-Regulation of Oncogenes and Synergism with Retinoic Acid 35

MATSUMOTO, M., REY, D. A. and CORY, J. G., Effects of Cytosine Arabinoside and Hydroxyurea on the Synthesis of Deoxyribonucleotides and DNA Replication in L1210 Cells 47

SESSION III

REGULATION THROUGH *RAS*

Session Chairman: J. G. CORY

MALY, K., HOCHLEITNER, B., ÜBERALL, F., LOFERER, H., OBERHUBER, H., DOPPLER, W. and GRUNICKE, H., Mechanism and Biological Significance of the Ha-*ras*-Induced Activation of the Na^+/H^+-Antiporter 63

MASTERS, S. B., LANDIS, C. A. and BOURNE, H. R., Mutational Analysis of the Structure and Function of GTP-Binding Proteins 75

SESSION IV

HORMONAL REGULATION OF GENE EXPRESSION

Session Chairman: O. BARNABEI

PERDEREAU, D., NARKEWICZ, M., COUPE, C., FERRE, P. and GIRARD, J., Hormonal Control of Specific Gene Expression in the Rat Liver During the Suckling–Weaning Transition 91

PUERTA, J., MATO, J. M. and ALEMANY, S., Phospho-Oligosaccharide Dependent Phosphorylation of ATP Citrate Lyase 109

SESSION V

REGULATION THROUGH PROTEIN PHOSPHORYLATION

Session Chairman: D. M. GIBSON

NIMMO, H. G., CARTER, P. J., FEWSON, C. A., McNAUGHTON, G. A. L., NIMMO, G. A. and WILKINS, M. B., Regulation of Phosphoenolpyruvate Carboxylase: An Example of Signal Transduction via Protein Phosphorylation in Higher Plants 121

RAPTIS, L., MARCELLUS, R. C. and WHITFIELD, J. F., Transforming Signals Generated by the Polyoma Virus Tumor Antigens 133

SESSION VI

TRANSMEMBRANE SIGNAL TRANSDUCTION

Session Chairman: G. H. HITCHINGS, JR.

HALDAR, S., BEATTY, C. and CROCE, C. M., BCL-2α Encodes a Novel Small Molecular Weight GTP Binding Protein 145

COCCO, L., CAPITANI, S., MARTELLI, A. M., IRVINE, R. F., GILMOUR, R. S., MARALDI, N. M., BARNABEI, O. and MANZOLI, F. A., Nuclear Inositol Lipids. Relationship Between Growth Factor Induced Metabolic Changes and Protein Kinase C Activity 155

SESSION VII

MECHANISM OF ENZYME ACTION

Session Chairman: A. H. CONNEY

BOLDYREV, A. A. and SEVERIN, S. E., The Histidine-Containing Dipeptides, Carnosine and Anserine: Distribution, Properties and Biological Significance 175

FLYNN, T. G., LYONS, C. and HYNDMAN, D. J., Enhancement of Aldose Reductase Activity by Modification of an Active Site Lysine: A Possible Mechanism for *in vivo* Activation 195

SESSION VIII

ENZYME-DIRECTED DRUGS AND NON-INVASIVE BIOCHEMISTRY

Session Chairman: J. CHILLER

STUBBS, M., RODRIGUES, L. M., GUSTERSON, B. A. and GRIFFITHS, J. R., Monitoring Tumor Growth and Regression by ^{31}P Magnetic Resonance Spectroscopy 217

GRÜN, B. R., BERGER, U., OBERDORFER, F., HULL, W. E., OSTERTAG, H. and KEPPLER, D., *In vivo* Metabolism and UTP-Depleting Action of 2-Deoxy-2-Fluoro-D-Galactose 231

SESSION IX

ENZYMOLOGY OF INBORN ERRORS OF METABOLISM

Session Chairman: C. M. CROCE

HARRIS, R. A., ZHANG, B., GOODWIN, G. W., KUNTZ, M. J., SHIMOMURA, Y., ROUGRAFF, P., DEXTER, P., ZHAO, Y., GIBSON, R. and CRABB, D. W., Regulation of the Branched-Chain α-Ketoacid Dehydrogenase and Elucidation of a Molecular Basis for Maple Syrup Urine Disease 245

CAYLA, X., GORIS, J., HERMANN, J., JESSUS, C., HENDRIX, P. and MERLEVEDE, W., Phosphotyrosyl Phosphatase Activity of the Polycation-Stimulated Protein Phosphatases and Involvement of Dephosphorylation in Cell Cycle Regulation 265

SESSION X

ISOZYMES AND HORMONAL CONTROL

Session Chairman: K. SNELL

TUBOI, S., SUZUKI, T., SATO, M. and YOSHIDA, T., Rat Liver Mitochondrial and Cytosolic Fumarases with Identical Amino Acid Sequences are Encoded from a Single mRNA with Two Alternative In-Phase AUG Initiation Sites 289

STALMANS, W., BOLLEN, M., TOTH, B. and GERGELY, P., Short-Term Hormonal Control of Protein Phosphatases Involved in Hepatic Glycogen Metabolism 305

SESSION XI

PROLIFERATION AND DRUG RESISTANCE

Session Chairman: W. J. MERLEVEDE

ALAKHOV, V. Yu., KISELEV, V. I. and SEVERIN, E. S., Calmodulin-Dependent Enzymes as a Target of Staphylococcal Enterotoxin A 331

PEARCE, H. L., WINTER, M. A. and BECK, W. T., Structural Characteristics of Compounds That Modulate P-Glycoprotein-Associated Multidrug Resistance 357

SESSION XII

SPECIAL SYMPOSIUM LECTURE: N. KATUNUMA

Session Chairman: F. M. HUENNEKENS

KATUNUMA, N., New Biological Functions of Intracellular Proteases and their Endogenous Inhibitors as Bioreactants 377
